The Center for Collective Usage “High Technology”

The center is a highly professional scientific and educational place for interdisciplinary research and training of scientific and engineering personnel. The Center’s development for 2014-2015 was implemented with the financial support of the Ministry of Education and Science of the Russian Federation. The project was carried out in the context of the federal target program "Research and development on priority directions of development of scientific and technological complex of Russia for 2014-2020" (the unique identifier of the project is RFMEFI59414X0002).

Mission of the Center

The Center’s mission is to provide the access to the high-priced equipment for researchers of SFedU and the Southern Federal district, as well as to train the SFedU students. The Center for Collective Usage “High Technology” offer its services (https://www.sfedu.ru/www/stat_pages22.show?p=CVT/N8425/P) to the research institutes and laboratories.
